

Vision and Mission of the Disability Advisory Committee:

The Disability Advisory Committee (DAC) at UNC-Chapel Hill was established in 1991. The University Disability Advisory Committee was formed and charged by the Chancellor to: (1) Review and assess all University programs which provide service(s) for disabled students and employees, and (2) Provide suggestions to the Associate Vice Chancellor for Facilities and Planning and the University 503/504 offices for developing a priority list of buildings that require renovations.

The DAC Vision and Mission has broadened, and we are currently committed to help UNC-Chapel Hill achieve an open and inclusive environment where all students, faculty, staff, and visitors are welcome and able to access the University's buildings, programs, services, and digital information with or without an accommodation.

The DAC Membership, comprised of various functional areas across campus, is focused on proactively identifying, reporting, and facilitating correction of any unsafe or inaccessible pathway, building, program, service, or digital information at the University.

The Equal Opportunity and Compliance Office is responsible for scheduling and facilitating the DAC Meetings at least once a semester.
